ABOUT US

MuniRem Environmental is a pioneer in the application of a portfolio of innovative green remediation technologies for metals, explosives, radiation, petroleum and perchlorate in various media. Our team of experienced scientists and professionals are dedicated to making a difference by providing our clients and partners with demonstrably superior cost-effective green remediation technologies and solutions. We provide services to US Fortune 100 companies and international military and environmental organizations. Our products are used by leading environmental engineering firms throughout the world. In the United States, our technology is recognized to be effective by the United States Army Corps of Engineers and has been specified by them for numerous projects.

OFFERED SERVICES

MUNITIONS REMEDICATION

- MuniRem is a solution for a broad range of explosives and munitions constituents including Mustard (CWM), HMX, RDX, TNT, TNR, DNTs, ADNTs, NBs, NDMA, Nitrocellulose, Nitroguanidine, PETN, PBX and reactive Aluminum.

BUILDING & EQUIPMENT DECONTAMINATION

- Decontamination applications involve spraying the MuniRem® solution on building walls, large equipment and scrap metals (including bombs shells, bomb components, projectiles); and soaking small sized equipment in MuniRem® baths.

SOIL REMEDIATION

- Contaminated soils treatment involves mixing MuniRem® into the soils and adding water to achieve in-situ or ex-situ remediation.

GROUNDWATER REMEDICATION

- Groundwater remediation involves injection of the MuniRem® solution into the site groundwater to instantly degrade the dissolved contaminants and create permeable reactive aquifer solids for long-term treatment of the plume.

ACID MINE WASTE REMEDICATION

- Limestone Buffered Organic Substrate (LBOS) is typically used for passive treatment of shallow groundwater, mine waste, and coal pile ash ponds. LBOS is a propriety blend of limestone, compost material, and gypsum which is formulated for the chemistry onsite and can remove almost any metal contaminant. The LBOS system generates its own alkalinity and can be used ex-situ or as an in-situ barrier for shallow groundwater. As with MMATS®, no additional energy or power is required and metals are precipitated out as metal sulfides. The system is cost-effective and long-lasting and is capable of protecting environmental habitats, ensuring groundwater security, and providing substantial cost savings for mining companies faced with mine waste problems at active or abandoned mine sites.

CUSTOMER INFORMATION

1a. Awarded Special Item Numbers (SINs):

- 899-1/899-1RC & 899-8/899-8RC

1b. Lowest-priced model number and lowest unit price for that model for each awarded:

- SME - \$119.65

1c. Labor Category Descriptions and Hourly Rates:

POSITION	HOURLY RATE
Project Manager	\$110.08
Project Superintendent	\$100.50
Project Coordinator	\$71.79
Project Scheduler	\$90.93
Project Engineer	\$105.29
Engineer Technician	\$90.93
Senior Consultant	\$148.36
Mid Consultant	\$129.22
Junior Consultant	\$110.08
Field Technician I	\$52.64
Field Technician II	\$71.79
Field Technician III	\$90.93
UXO Technician I	\$90.93
UXO Technician II	\$110.08

LABOR CATEGORY DESCRIPTIONS

Labor Category:	Project Manager
Minimum Experience:	5 Years of related Technical Experience
Job Description:	Responsible for the coordination and completion of projects. Oversees all aspects of projects. Sets deadlines, assigns responsibilities, and monitors and summarizes progress of project. Prepares reports for upper management regarding status of project. May require a master's degree and at least 8 years of experience in the field or in a related area. Familiar with a variety of the field's concepts, practices, and procedures. Relies on extensive experience and judgment to plan and accomplish goals. Performs a wide variety of tasks. Leads and directs the work of others. A wide degree of creativity and latitude is expected.
Minimum Education:	Bachelors Degree in related field

Labor Category:	Project Superintendent
Minimum Experience:	3 Years of related Technical Experience
Job Description:	Manages the day-to-day field activities to ensure that the project milestone dates and overall schedule completion date is met. Creates and maintains a culture that values safety, health and cleanliness. Manages and coordinates the work to ensure that it is constructed in an orderly and deliberate manner that is consistent with the standard-of-care set forth in the contract documents that is viewed by industry as an effort that is consistent with best-practices standards. Verifies that all work is installed in a workmanlike manner. Ensures all aspects of the project are compliant with all contract terms and legal requirements.
Minimum Education:	Associates Degree in related field

Labor Category:	Project Scheduler
Minimum Experience:	3 Years of related Technical Experience
Job Description:	Organizes, implements and maintains scheduling management system supporting identified projects and their plans. Assists to set up tasks and sub tasks to ensure satisfactory realization of project contract requirements as scheduled. Interacts with customer and project staff to schedule work and coordinate assignments. Designs and develops project schedule.
Minimum Education:	Associates Degree in related field

Labor Category:	Project Coordinator
Minimum Experience:	3 Years of related Technical Experience
Job Description:	Primarily provides support to the Project Engineer in all facets of tracking, coordinating, and assisting in the completion of major programs and projects.
Minimum Education:	Associates Degree in related field

Labor Category:	Project Engineer
Minimum Experience:	5 Years of related Technical Experience
Job Description:	Designs and supervises construction projects such airports, bridges, channels, dams, railroads, and roads. Prepares proposals and cost estimates. Estimates work load to establish completion dates. Requires a college degree in engineering. License and certification may be required. Demonstrates knowledge in a variety of the field's concepts, practices, and procedures. Relies on experience and judgment to plan and accomplish goals. Performs a variety of tasks. A degree of creativity and latitude is expected. Works under minimal supervision; In most cases, reports to a project manager.
Minimum Education:	Bachelors Degree in related field

Labor Category:	Engineer Technician
Minimum Experience:	1 Year of related Technical Experience
Job Description:	Assists all levels of engineers with their tasks and assignments. Familiar with a variety of the field's concepts, practices, and procedures. Relies on experience and judgment to plan and accomplish goals. Performs a variety of complicated tasks. In most cases, reports to a supervisor or manager. A wide degree of creativity and latitude is expected. Prepares site plans, site design drawings including cross-sections, profiles, figures, sketches, and as-builts for inclusion in project documentation.
Minimum Education:	Associates Degree or Equivalent

Labor Category:	Junior Consultant
Minimum Experience:	3 Years of related Technical Experience
Job Description:	Professional providing general guidance and assistance to help customers achieve a specific solution pertaining to above ground storage tanks and fuel systems. Demonstrates exceptional oral and written communication skills.
Minimum Education:	Bachelors Degree in Computer Science

Labor Category:	Mid Consultant
Minimum Experience:	5 Years of related Technical Experience
Job Description:	Professional providing general guidance and assistance to help customers achieve a specific solution pertaining to above ground storage tanks and fuel systems. Demonstrates exceptional oral and written communication skills.
Minimum Education:	Bachelors Degree in Computer Science

Labor Category:	Senior Consultant
Minimum Experience:	8 Years of related Technical Experience
Job Description:	Professional providing general guidance and assistance to help customers achieve a specific solution pertaining to above ground storage tanks and fuel systems. Demonstrates exceptional oral and written communication skills.
Minimum Education:	Bachelors Degree in Computer Science

Labor Category:	Field Technician I
Minimum Experience:	1 Year of related Technical Experience
Job Description:	Supports a variety of construction tasks pertaining to above ground storage tanks and fuel systems. Participates in demolition or installation related activities. Performs non-routine and complex assignments under the general supervision of a project manager. Demonstrates familiarity with principles or precautions needed for the particular assignment. Can perform simple tasks under the supervision of senior personnel.
Minimum Education:	HS Diploma or Equivalent

Labor Category:	Field Technician II
Minimum Experience:	3 Years of related Technical Experience
Job Description:	Supports a variety of construction tasks pertaining to above ground storage tanks and fuel systems. Participates in demolition or installation related activities. Performs non-routine and complex assignments under the general supervision of a project manager. Demonstrates familiarity with principles or precautions needed for the particular assignment. Can perform more complex tasks with minimal supervision required.
Minimum Education:	HS Diploma or Equivalent

Labor Category:	Field Technician III
Minimum Experience:	5 Years of related Technical Experience
Job Description:	Supports a variety of construction tasks pertaining to above ground storage tanks and fuel systems. Participates in demolition or installation related activities. Performs non-routine and complex assignments under the general supervision of a project manager. Demonstrates familiarity with principles or precautions needed for the particular assignment. Can perform all tasks with no supervision required. Shall supervise junior personnel.
Minimum Education:	HS Diploma or Equivalent

Labor Category:	UXO Technician I
Minimum Experience:	1 Years of related Technical Experience
b Description:	<p>The Unexploded Ordnance (UXO) Technician II will perform: reconnaissance</p> <p>and classification of UXO, identification of U.S. and foreign guided missiles, bombs and bomb fuses, projectiles and projectile fuses, grenades and grenades fuses, rockets and rocket fuses, land mines and associated components, pyrotechnics, military explosives and demolition materials. This technician will locate subsurface UXO using military and/or civilian magnetometers, perform excavation procedures on buried UXO by manual and mechanical means, and perform operator maintenance of military and/or civilian magnetometers. This technician will also locate surface UXO using visual means, operate motor vehicle transporting UXO, prepare an on-site safe holding area for UXO, perform storage of UXO and demolition materials and prepare an UXO disposal site; prepare non-electric firing system for an UXO disposal operation, electric firing system for an UXO disposal operation, and a detonating cord firing system.</p> <p>The technician will dispose of UXO/explosives by burning and/or detonation, operate a personnel decontamination station, and wear appropriate personal protective equipment in contaminated areas. This worker will inspect salvage</p> <p>UXO-related material, erect UXO-related protective works, determine a magnetic azimuth using a lensatic compass, perform field expedient identification procedures to ID explosive-contaminated soil, perform emergency leak seal and packaging of chemical warfare material, and use radiographic (x-ray) equipment.</p>
Minimum Education:	Associates Degree or Equivalent

Labor Category:	UXO Technician II
Minimum Experience:	5 Years of related Technical Experience
Job Description:	<p>The Unexploded Ordnance (UXO) Technician II will perform: reconnaissance and classification of UXO, identification of U.S. and foreign guided missiles, bombs and bomb fuses, projectiles and projectile fuses, grenades and grenades fuses, rockets and rocket fuses, land mines and associated components, pyrotechnics, military explosives and demolition materials. This technician will locate subsurface UXO using military and/or civilian magnetometers, perform excavation procedures on buried UXO by manual and mechanical means, and perform operator maintenance of military and/or civilian magnetometers. This technician will also locate surface UXO using visual means, operate motor vehicle transporting UXO, prepare an on-site safe holding area for UXO, perform storage of UXO and demolition materials and prepare an UXO disposal site; prepare non-electric firing system for an UXO disposal operation, electric firing system for an UXO disposal operation, and a detonating cord firing system.</p> <p>The technician will dispose of UXO/explosives by burning and/or detonation, operate a personnel decontamination station, and wear appropriate personal protective equipment in contaminated areas. Minimum Education:	Associates Degree or Equivalent

Service Contract Act "The Service Contract Act (SCA) is applicable to this contract and it includes SCA applicable labor categories. The prices for the cited SCA labor categories are based on the U.S. Department of Labor WD Number(s) identified in the SCA matrix. The prices offered are based on the preponderance of where work is performed and should the Contractor perform in an area with lower SCA rates, resulting in lower wages being paid, the task order prices will be discounted accordingly."

SCA Eligible Labor Category	SCA Equivalent Code Title	Wage Determination No
Engineer Technician	30081 – Engineering Technician	WD 05-2133
UXO Technician I	30491 – Unexploded Ordinance Technician I	WD 05-2133
UXO Technician II	30492 – Unexploded Ordinance Technician II	WD 05-2133

2. Maximum Order: \$1,000,000.00
3. Minimum Order: \$100.00
4. Geographic Coverage (Delivery Area): Worldwide
5. Point of production: Same as company address
6. Discount from list prices: Federal Government price is list price minus 5% discount.
7. Quantity Discounts: Discount:
 - 2% for orders over the SAT;
 - 3% for task orders between \$250,000 and \$500,000;
 - 5% for task orders over \$500,000
8. Prompt Payment Terms: 1% Net 10, Net 30
- 9a. Government purchase cards are accepted at or below the micro-purchase threshold: Yes
- 9b. Government purchase cards are accepted above the micro-purchase threshold: Yes
10. Foreign Items: None
- 11a. Time of Delivery: As agreed in each task/delivery order
- 11b. Expedited Delivery: Contact Contractor
- 11c. Overnight and 2-day Delivery: Contact Contractor
- 11d. Urgent Requirements: Contact Contractor
12. F.O.B. Point(s): Destination
- 13a. Ordering Address: Same as company address
- 13b. Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPAs), and a sample EPA can be found at the GSA/FSS Schedule homepage (fss.gsa.gov/schedules).
14. Payment address(es): Same as company address
15. Warranty provision. Standard 1 Year Warranty

16. Export packing charges, if applicable. N/A
17. Terms and conditions of Government purchase card acceptance (any thresholds above the micro-purchase level): Credit Cards accepted up to \$25k
18. Terms and conditions of rental, maintenance, and repair (if applicable) N/A
19. Terms and conditions of installation (if applicable). N/A
20. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable). N/A
- 20a. Terms and conditions for any other services (if applicable) N/A
21. List of service and distribution points (if applicable). Same as company address.
22. List of participating dealers (if applicable). N/A
23. Preventive maintenance (if applicable). N/A
- 24a. Special attributes such as environmental attributes (e.g., recycled content, energy efficiency, and/or reduced pollutants) N/A
- 24b. If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contractor website or other location.) The EIT standards can be found at www.Section508.gov/.
N/A
25. Data Universal Number System (DUNS) number. 060312216
26. Notification regarding registration in Central Contractor Registration (CCR) database.
SAM registration is valid through 4/25/2019
